* We are members of the PBFA association of booksellers and regularly exhibit at fairs around the country. Please see inside the back cover for a list of forthcoming fairs we shall be attending.

* I am a member of various polar groups, including the Friends of SPRI, BAS Club the Devon and Cornwall Polar Society and the James Caird Society.
Welcome to my latest polar catalogue… my 18th since 2006!

I hope you enjoy looking at the variety of polar material we have to offer. I have separated Arctic from Antarctic books and have three different sections in this catalogue as follows:

- Pages 4 to 21  Antarctic Books
- Pages 22 to 34  Arctic Books
- Pages 35 to 38  Polar Ephemera

This time I have changed the format a little and devoted a page to various men and expeditions, each with a classic title listed. There are pages on Amundsen in the Antarctic, Bruce and the SNAE, Frank Debenham, Ross Sea Party, Douglas Mawson, Scott’s ‘Discovery’ Expedition, Sir John Franklin and Sir William Parry. All the other books are listed in author alphabetical order.

Clearer, colour pictures of items in this catalogue can be seen in the online version available to view on our website…

www.kingsbridgebooks.co.uk

If the book you are looking for is not in this catalogue, then please get in touch as we do have many other books (and items of ephemera) not listed here. Please let us know if you would like more details about the content or condition of any of the books. Images can be emailed if required.

Happy reading

Paul Davies

* Many books sell very quickly therefore so it is best to ring or email straight away, then Andrea or I can reserve them for you.

* Because of the costs involved, we regret that if you do not place an order after receiving three issues of our catalogue we will no longer be able to send it to you, unless you specifically ask for it.

*A handsome set of an uncommon book. Otto Svedrup was the second in command on the Fram during Nansen’s famous journey to the farthest north. Heavy ice prevented the expedition making a serious attempt on the Pole but they were able to sledge up the coast of Ellesmere Island and they explored four undiscovered islands (Axel Heiberg, Ellef Ringnes Land, Amund Ringnes Land, and King Christian Is) and studied Jones Sound, making important scientific observations.*
